

Computer Architecture

HW 0 : Introduce yourself !

Instructor : Paul Mellies

- What is your name ?
- And your NetID ?
- In which city (and country) did you study before joining NYU ?
- What other courses do you follow this semester ?

- What do you expect to learn from the Computer Architecture course ?

- What are your educational goals and career plans after and beyond what you are currently studying at NYU Shanghai ?

- What are your favorite Programming Languages ?

- Have you ever programmed in assembly code or in machine code ?

- Have you already written code in the C programming language ?
- Is there a program you are most proud of ?
Could you please describe it in a few words ?
- What laptop or computer do you currently work with ?
- Which Operating System does it run ?
- Have you ever used Unix or Linux ?
- Have you ever used `emacs` or similar text editors ?
- Any early suggestion you would like to make concerning the course ?
- Any specific information you would like to share ?
- Are you concerned by the quality of your internet connection ?
- What are your favorite hobbies ?
